Dear Mother;—

arrived O.K. Sunday night at seven thirty. Bob and Kay were at the station to meet me which was indeed a lucky break. I am rooming at Simons' with a Sophomore. The room is not so good as the one Budington and I had engaged.

I came out to the house first Sunday night and then Bob at I went down to the fraternity house. Had quite a long talk with Clay Wright, who used to live in Akron. yesterday I went thru the ordeal of registering. I met a kid that was in my class down at high school; so we went thru together. I found we have several classes together. Last night (Mon.)

at th College Commons on a meal ticket for four dollars a week. Last night, however, I walked in and sat down in Sims Hall and got a very fine meal for nothing. On this four dollar meal ticket you get breakfast, dinner, and supper every day except Sunday. Over at Sims the cost is $7 a week including every meal except Sunday evening. at th Commons th food is not so hot nor is there enough of it. at Sims, however, you get good food and plenty of it; so after this week, I think I'll eat a Sims.

I got a fellow at th house here to bring my trunk out last night and every thing was in pretty fair shape. The trunk followed me out, for I saw it in Albany.

(over)

I went over to the Sigma new house. That is the one Stearns & Stevens are in. I had quite a chat with Don. I also started off the year well by forgetting my key to the room.

They split my payments up very funny. I paid them an hundred dollars and they divided the scholarship into $75 for each semester. They forgive my first semester bill at $204 and I paid them the equivalent of $175, leaving a balance of $29 to be paid by Oct. 5. This means that next semester I will pay only $60 plus lab. fees. I did not like the idea much but what could I do about it.

I have been eating for the past two days

now as to my studies. I decided against R.O.T.C at the last minute and took gym instead. I am taking the following:

1. Political Science 1
2. Philosophy
3. Science 2 (a combination of Zoology, botany & geology)
4. German 1 (I took this instead of Latin)
5. Eng 1

I have every afternoon off except Thursday when I have a three hour lab. I also have two classes on Sat, which is not so bad.

Tomorrow I take my physical exam which, from all reports, is pretty bad. I certainly hope to get out of the vaccination.

The weather is certainly fine & I sure hope it continues.

well I'll close this and write you more fully about the st situation after classes start.

your loving Son
Don
